

WISDOM TREE

MEDITATION

CARDS

**Contemplate.
Heal. Yourself. And.
Mother Earth.**

Spiritual values shape action. Values nourished by the world's religious, spiritual and Indigenous traditions have been aiding the periodic healing of individuals and communities after cataclysmic disasters. We recognize that the human-made climate crisis is a crisis of lacking values and virtues. Nurturing positive, inclusive, healthful spiritual values in ourselves, in our communities is a powerful way to ground our climate action. As an aid to inculcating the values we need, we have created a set of Meditation Cards. These cards share insights about climate action and care for Mother Earth from different traditions.

Use the bar code or visit:
www.partner-religion-development.org/wisdom-tree.

Respond to the questions of each card by putting your answer to a leaf or by emailing FaithPavilionTree@gmail.com.

The responses and messages written on the leaves in the Faith Pavilion of the Wisdom Tree will be collected and a selection made available publicly.
